

# FizzBuzz

---

- Write a program that will console log integers 1 to 100
- but print "Fizz" if an integer is divisible by 3
- "Buzz" if an integer is divisible by 5
- and "FizzBuzz" if an integer is divisible by both 3 and 5
- upload your work to GitHub

# 99 Bottles of Beer

---

Write a program that will print the song "99 bottles of beer on the wall", based on the lyrics:

```
99 bottles of beer on the wall, 99 bottles of beer.  
Take one down and pass it around, 98 bottles of beer on the wall.  
  
98 bottles of beer on the wall, 98 bottles of beer.  
Take one down and pass it around, 97 bottles of beer on the wall.  
  
...  
  
No more bottles of beer on the wall, no more bottles of beer.  
Go to the store and buy some more, 99 bottles of beer on the wall.
```

# Bonus

---

refactor fizzbuzz into as small a program as possible (both line and character count)
